Destroyed World ,

The Ultimate destination of Science and Technology ..

Abu Hayyan Saeed, May 5, 2024.

“ Will the monstrous evolution of science and technology end the human race long before the end of this century ?”

There is not a doubt in my mind that technology is important,but without limitations it would travel the world to the Ultimate destruction very soon,maybe before the end of this century .

If the rampant proliferation of technology is not strictly curbed, I strongly believe that after 2050, current missile technology will be so obsolete and the people of that era will laugh at the large long-range missiles on display in museums. They will be laughing and laughing at those who made them and will be considered crazy. Because after 2050, every person will be walking around with his personal missile, the size of which will hardly be the size of a pen or the size of a cigar. A small cigar cum missile box will contain 10 cigar-sized nuclear missiles with a range of 500 to 5000 km.

Now We are in 2024 AD, faced with biological weapons like CoronaVirus in 2020 causing vast human destruction spread by human error,and digested millions of people.
An international reliable website worldometers.info confirmed that **7,010,681 people** have died so far from the coronavirus COVID-19 outbreak as of April 13, 2024, 01:00 GMT. There are currently (5th May 2024) 704,753,890 confirmed cases in 229 countries and territories . The fatality rate is still being assessed.

Last three centuries, we achieved milestones in science and technologies. We invented and discover electricity to locomotive engine, telephone to penicillin, cycle to modern cars, modern harvesting equipment, Rockets to capture moon, computer to internet, gramophone to iPhone, sword to modern missile, shield to interceptor, horse to F22 fighter jets, fairy to modern ships, dynamite to atom bomb, fan to AC, mud oven to electric oven so on and so forth.

On the other hand man made Biological weapons like Covid shocked and shut the entire world and turned all modern technology and modern medical equipment into debris. We were confined to our homes, and became paralyzed. We intended to conquer the entire world from earth to moon, from giant mountains to the furious sea, and during CoronaVirus era we were afraid to shake hands with each other.

With the evolution of science, the atomic bomb called "fat boy" has become a nuclear bomb the size of a " ***tennis ball*** ". After a few years, every person will carry his/her personal bomb. The classical dial phone has now moved beyond the cell phone to become a chip behind the ear. By 2050, every person will have a "flying back-pack" wherever they want to fly.

Think what happens when A Jihadi flies from Lahore and reaches Amritsar or Delhi or flies from Mirpur Khas and lands in Ajmer with some tennis balls, flies from Gaza to Tel Aviv and takes two or four "***tennis balls***" with him. , Jihadi flew from Turkey and landed in

Europe along with two or four tennis balls. Jihadis will have fun, Jihadis fly from Xinjiang and land in mainland China, a jihadi flies from Akita and lands in Tokyo with some Tennis Balls.

After a few more years, long range stealth backpacks will come into existence, then Jihadi will visit America from Spain or Nigeria again and again .The monstrous evolution of science and technology will end the human race long before the end of this century…

What will be the Scenario at the end of this century ?

Then after millions of years, this century, there will be another big bang and the process of evolution will start again. Are we ready to go back millions of years at the cost of Technology ! Think..Think
